

Astrium GEO-Information Services FORMOSAT-2 Price List

The FORMOSAT-2 satellite provides a large range of complementary products and services. Its unique daily revisit capability offers up-to-date time series for change detection, also guarantees acquisitions in a short period of time and rapid coverage of large areas.

FORMOSAT-2 products

All products are supplied in DIMAP format (Image in GEOTIFF, Metadata in XML) and are delivered by FTP or on CD-Rom on request in 48h (except week end). These come in different modes and processing levels for a coverage of 24 x 24 km at Nadir.

- Select the product & define your validation criteria (level, angle, date, cloud cover, etc)
- Contact Spot Image (formosat2@spotimage.fr) for a feasibility study or an archive research
 - > In programming mode, non-validated acquisitions are not invoiced

For ortho-level 3 products, GCP/maps can be provided by the customer or GEO reference layers can be proposed; ortho products are delivered in GEOTIFF.

	2-m B&W / 8-m MS Level 1A / 2A	Bundle or 2m PanSharepened	2-m colourOrtho level 3
Archive	€ 1 875	€ 2 250	€ 2 700
Programming Mode	€ 2 625	€ 3 000	€ 3 450
